

# VALUE insightCloudSec | NephōSec ACCELERATION PROGRAM

Maximize your Cloud investments through a series of tailored activities that **engage** technical & business stakeholders, **align** key performance indicators, and **fast-track ICS adoption** and implementation throughout your organization. Throughout the program we will focus on...

SECURITY

COMPLIANCE

INTEGRATIONS

GOVERNANCE

## ICS Value Acceleration Program

ICS Value Acceleration Program is designed around the customer, but typically includes the following activities:

- Engagement Objective Session
- Technical Onboarding Checkup
- Configuration and Best Practices Learning Session
- Focus Area Deep-Dives
- QuickStart/Next Level
- Engagement Wrap-Up

## Recap and Recommendations

At the end of the ICS Value Acceleration period of performance, customers will receive tailored documentation that memorializes the results of any customer working sessions, workshops, and deep-dives.

## Hyper-Value Checkup

A Checkup will be provided 3-6 months after the engagement ends. This checkup includes:

- System health check
- Organizational adoption, and automation maturity
- Conformance to evolving developments in industry compliance

## 4 GOVERNANCE

Focused on improving governance and automating enforcement of previously created policies.

## 2 COMPLIANCE

Leverage ICS Compliance Packs to find compliance misconfigurations. Custom Compliance checks are also created for organization specific needs.

---

ACCELERATION WORK WILL BE DIVIDED INTO **4 SPRINTS** OVER 8-12 WEEKS IN ORDER TO MAXIMIZE YOUR ACCELERATION AND VALUE...

---

## 3 INTEGRATIONS

Focus on integrating with customer systems. Works with customer technology teams to identify ICS integration areas, existing solutions, and potential customizations.

## 1 SECURITY

Leverage ICS to help identify, remediate, and report on different security metrics. Custom security checks are also created for organization specific needs.
